APPENDIX

The operation of a DOCSIS compliant cable modem is detailed in "*Data-Over-Cable Interface Specifications: Radio Frequency Interface Specification*", available from Cable Labs as specification SP-RF1v1.1-I08-020301:2002. This reference is cited in the present Information Disclosure Statement because it was originally cited as a reference only for purposes of background information in provisional application serial number 60/516,711. It is being cited in this application to assure that there is no appearance of withholding possibly relevant material from the Examiner.

This document is approximately 450 pages in length and is believed to be only peripherally relevant to the present invention which utilizes a DOCSIS compliant modem in a preferred embodiment. Any other modem could similarly be used in other embodiments. Due to the reference's length and extremely limited relevance, this document is being provided on a CD in Adobe Acrobat format for the Examiner's reference. While it is understood that this does not strictly comply with the current requirements for submission of references, Applicants respectfully request the Examiner's consideration of this reference in making a determination of patentability in the present application. If the Examiner would like to receive a paper copy of the present reference, Applicants respectfully request that the Examiner contact Applicants' representative Mr. Jerry Miller at 919-816-9981 to request a copy.
